Be aware that these people potentially have mental issues. If you are thinking of hiring one of them, renting to them, loaning money, etc., ensure you vet them completely.

My own experience with them is that they are people teetering on the edge. The following are issues I have directly witnessed<sup>1</sup>.

- Armed trespass
- Firearm intimidation (shots fired at property lines to intimidate neighbors, day/night)
- Intimidation by animal (head) parts placed on another's property
- Vehicle harassment and assault
- Dumping of trash and human waste (buckets) within community as well as along county roads (Sherwood).
- Filing of false police reports, including creation and submission of fake photo and videographic evidence (verifiable through court records)
- Harassment campaigns (noise, plus all of above) with goal of driving out specific land owners (property owner John Simpson was one casualty).
